SubliJet SUBLIMATION INKS - RICOH/VIRTUOSO PRINTERS

The Ricoh is capable of achieving high quality prints without comprising speed. The specially formulated gel sublimation inks allow it to produce brilliant, sharp images like never before. The standard SubliJet cartridge format allows for easy installation (no need for a quick connect system). Standard 4-color ink systems reduces confusion and storage space for spare cartridges. The high capacity cartridges and built-in high capacity paper trays allow for longer continuous uninterrupted printing. Easy to use plug and print cartridges makes printing and maintenance easy and trouble free.

Pretreat Machines

Pretreatment machines will provide fast and consistent results. Pretreating a shirt with the Zoom XL is simple and fast! These machines will save you labor cost as well as spoilage costs as each shirt will be Pretreated the same. If you are pretreating manually, you may not get consistent result because this is dependent on the operator. With a pretreat machine, you can control exactly how much pretreat you put every time!
